

CORPINNAT

THE BRAND – VALUES AND REQUERIMENTS

ANNUAL REPORT 2022

The brand

CORPINNAT is a collective brand name in the European Union which at this time is grouping eleven wineries from the Penedès region producing sparkling wines under cover of one of the strictest quality manuals in the world. 100% organically grown grapes, manually harvested, and vinified in the property, long ageing, and long-term contracts with winegrowers, are the main values which characterise our brand name.

CORPINNAT Territory 997 km² i 22.966 ha. vineyard, of which currently 1,126 ha. are used for the production of CORPINNAT sparkling wines.

Data from the harvest 2022

The new reality caused by climate change meant that the 2022 vintage was one of the earliest in history in the CORPINNAT territory. In total, 5,764,584 kg were harvested from 1,099.2 hectares: 638 of own vineyards and 461.2 of vineyards with purchase contracts from winegrowers.

The average yield in the vineyard was 5,245 kg/hectare. In compliance with the Regulations for the Use of the brand, the CORPINNAT wineries paid at least 0.75 euros per kilo of organic grapes, 15-euro cents more than in 2018, when the first CORPINNAT harvest took place. Taking into account that there are wineries that far exceeded this amount, the resulting average price of all the grapes bought from the winegrowers was 0.89 €/kg.
